# INTELLIGENT CLASS & GROUP MANAGEMENT PLATFORM

## Lively online collaborative learning

Online collaborative learning is an e-learning technique where one or more students, teachers, or individuals come together to learn, research, and share an educational course.

Best of all, this approach enhances the typical education method by allowing people to connect remotely, work in groups in real-time through technology platforms.

And at Pandos, we create virtual spaces that help teachers and students perform group tasks more vividly than ever before!

## Friendly user interface for all devices

*Is classroom management taking up a lot of your time?*

*Or are the teams generating unoptimized?*

*Do not worry! Get started right away with Pandos' intelligent group management tool, where you can view classes as a whole, harness the potential of individual students and teams, assign tasks, and interact with each other lively, etc. which help improve the quality of your classes!*

*With a friendly interface, you can completely master Pandos in just a few minutes!*

# HIGHLIGHT FEATURES

## #1 - EXPRESS YOURSELF WITH MEMBERS

Maybe you missed this! Group learning is more effective if team members are diverse in skills and personalities. With the smart self-assessment function, Pandos can make it easier for you to find companions with matching skills & abilities, and help improve team productivity much better!

## #2 - SMART GROUP GENERATOR

Teachers or students can form their own groups in person or randomly, or based on multiple criteria: goals, availability, personality, skills, gender, and furthermore!

## #3 - EXTREMELY SIMPLE WORK MANAGEMENT OPERATION

User-friendly and easy-to-use task management interface for groups and individuals. It only takes a few steps: create tasks, assign assignments, submit reminders, and return work results. With Pandos, deadlines are no longer a worry!

## #4 - IMPROVE CLASS AND TEAM PERFORMANCE

Our group assessment feature allows instructors to create diverse class performance survey questions, and also helps students anonymously rate their teammates!
